MIDWEST BLUEBIRD RECOVERY PROGRAM
AUDUBON CHAPTER OF MINNEAPOLIS

P.O. BOX 566
MINNEAPOLIS, MINNESOTA 55440

October 27, 1985

Dear Bluebirders:

The 1985 Midwest Bluebird Recovery Directory is enclosed. Let us know if there are any large errors -- and remember we welcome suggestions for format changes. The detailed data you sent will be analyzed in depth in the next few months and passed on to you in our early spring mailing.

The directory does serve its purpose -- trends in bluebird recovery are clearly reflected here, we know where houses are located and to whom they belong. Trail monitors are benefitting from past experiences, experimentation and suggestions from 'older' bluebirders.

We have 41 less reports this year (330) and 725 less houses reported (6133), but, with a higher percent from those who annually monitor and report, we have a 50% increase in number of successful broods (1988 vs 1332 in 1984) and a 59% increase in fledglings (6803 vs 4282 in 1984)!!!

The midwest weather favored bluebird nesting times; far less pesticide poisoning was reported; black fly problems were down and under control. The figures that are of concern show that over 105 eggs and/or nestlings were lost to predators -- wrens still pierce and remove bluebird eggs where house placement encourages them; house sparrow (English sparrow) kill of half-grown nestlings increased; raccoons and feral cats still feasted on eggs and young too often.

The last two problems can be virtually eliminated -- house sparrows must be persistently trapped and destroyed; the new Peterson cat/coon guard, substituted in old and new houses, has been field tested extensively this year and proven to prevent destruction of eggs and nestlings by cats and raccoons. Even three pegs driven into old houses works!

We wish we could share with you the joyous letters from people who suddenly got bluebirds after three or more years of trying. One man wrote that his neighbor had been trying for 40 years! Now that's determination! He never gave up!

The map enclosed shows houses and fledglings by county. We know there are more unreported. Please help spread the word!

Special thanks go to Joyce Nellis of New Brighton and Dave Ahlgren of Burnsville for compiling all the reports, to Carrol Henderson of the Nongame Division of the Minnesota Department of Natural Resources for making this mailing possible, and to the working committee listed on the back. We would like to dedicate this year's report to two of our most devoted bluebirders whose very active lives were suddenly cut short this year: Wes Shobe of Brooklyn Park and Emil Dey of Mahtomedi. We are not the only ones who will miss their loving concern.

Delores & Ernie Wendt
Wisconsin Coordinators

Dorene Scriven
Minnesota Coordinator

Rita Efta
Iowa Coordinator

P.S. Everyone who sent in a report or wrote since last April automatically stays on our mailing list. A check here means we haven't heard again from you; let us know if you wish to stay on our list.

DNR INFORMATION
(612) 296-6157

Dear Friend:

The Nongame Wildlife Program of the Department of Natural Resources and the Bluebird Recovery Committee of the Audubon Chapter of Minneapolis are pleased to present you with this 1985 Bluebird Directory. We hope you will enjoy exploring this information.

Once again we appreciate the work of Joyce Nellis and Dave Ahlgren for computerizing all this data.

This year we have received 340 reports. There were 6602 houses reported with 2067 broods that included 7027 eggs. This resulted in the production of 7027 fledglings—a new record. The most obvious trend from last year is that our bluebird volunteers are learning from their experience and increasing the bluebird occupancy rate of their houses.

I also wish to express my appreciation for your continuing support of the Nongame Wildlife Program. Last year we set another new record - \$700,000 in donations!

The following listing is relatively self-explanatory except the "SHARE" code. The key is as follows:

- TR - Willing to share trail with others
- SP - Willing to speak to groups
- MS - Maybe willing to speak to groups
- MT - Maybe willing to share trail with others
- Lt - Later, trail
- LS - Later, speak to groups
- IF - If we have bluebirds
- TRP - Share trail on personal basis
- ? - Relatively sure bluebirds fledged; number unknown

Best wishes for success on your bluebird trail in 1986!

Sincerely,

Carrol L. Henderson
Nongame Supervisor
Section of Wildlife

P.S. The names and addresses contained in this list are not to be used for solicitation purposes.
